# External Handrail

Version 2 (Different timber specie)

These drawings are not to scale. Sizes may vary from batch to batch.

Timber Specie : Merbeau (aka Kwila) (Origin : SE Asia plantations)

What can you expect from this specie ?

- Durability 1 : 20+ years external life.
- Dark Red-Brown colour with yellow fleck throughout. Fairly consistent.
- Suitable for staining, painting or polishing. Before doing so, a light sanding may be required.
- Hard and dense, pre-drill before inserting screws or nails.
- Available in long finger jointed (up to 1 metre between joins) lengths of 5.7m. The timber is relatively straight, although the more frequently you can brace it over a length the less likely it is to bow in the future.

Code	Description
JH140	65 X 40 External Handrail
JH150	87 X 40 External Handrail
JH160	135 X 40 External Handrail
