JN304 - 1150mm x 40sq
JN305 - 1070mm x 40sq

**Flat Saddle
JN306**
**Curved Saddle
JN307**

What is the Stainless Stair System ?

It is our **new** range of ready-to-go posts & accessories for balustrade, in a 316 Stainless Steel Satin Finish.

Where can it be used ?

Both inside and outside. 316 Stainless Steel is the best corrosion resistant steel available, particularly when used outside or in coastal locations. Like all products that are subject to the outside elements, if they are not regularly maintained they will deteriorate in appearance. Products that can be applied to prevent deterioration can be found at most good hardware stores.

What are the features of the range ?

- 3 styles of posts available;
 - ⇒ 40mm Square Post for top mounting
 - ⇒ 50mm Round Post for top mounting (cover plate supplied)
 - ⇒ 40mm Square Post for side mounting
- No welding or gluing required for the posts; they are ready straight out of the box to fix to the stair. (Due to the various types of surface the posts could be fitted to, hardware for fixing is NOT supplied).
- Posts are available in 2 set lengths; 1 for the rake and 1 for the level. Length is measured from the bottom of the post to the top of the saddle (when fitted).
- The saddle (the part the handrail fits to) can be adjusted to suit any angle and even more importantly can be removed to make the fixing of the handrail easier.
- 2 different balustrade options are available for fitting to the posts
 - ⇒ Glass Clamps for both the square and round posts to suit 8mm and 10mm glass.
 - ⇒ Horizontal Bars, the holders (for both square and round posts) and bullet ends.
 Note : Stainless wire (aka cable) balustrade can be used with these posts, but we recommend strengthening the inside of the post due to the extra tension the wire creates.
- All parts are kept in stock for immediate delivery.

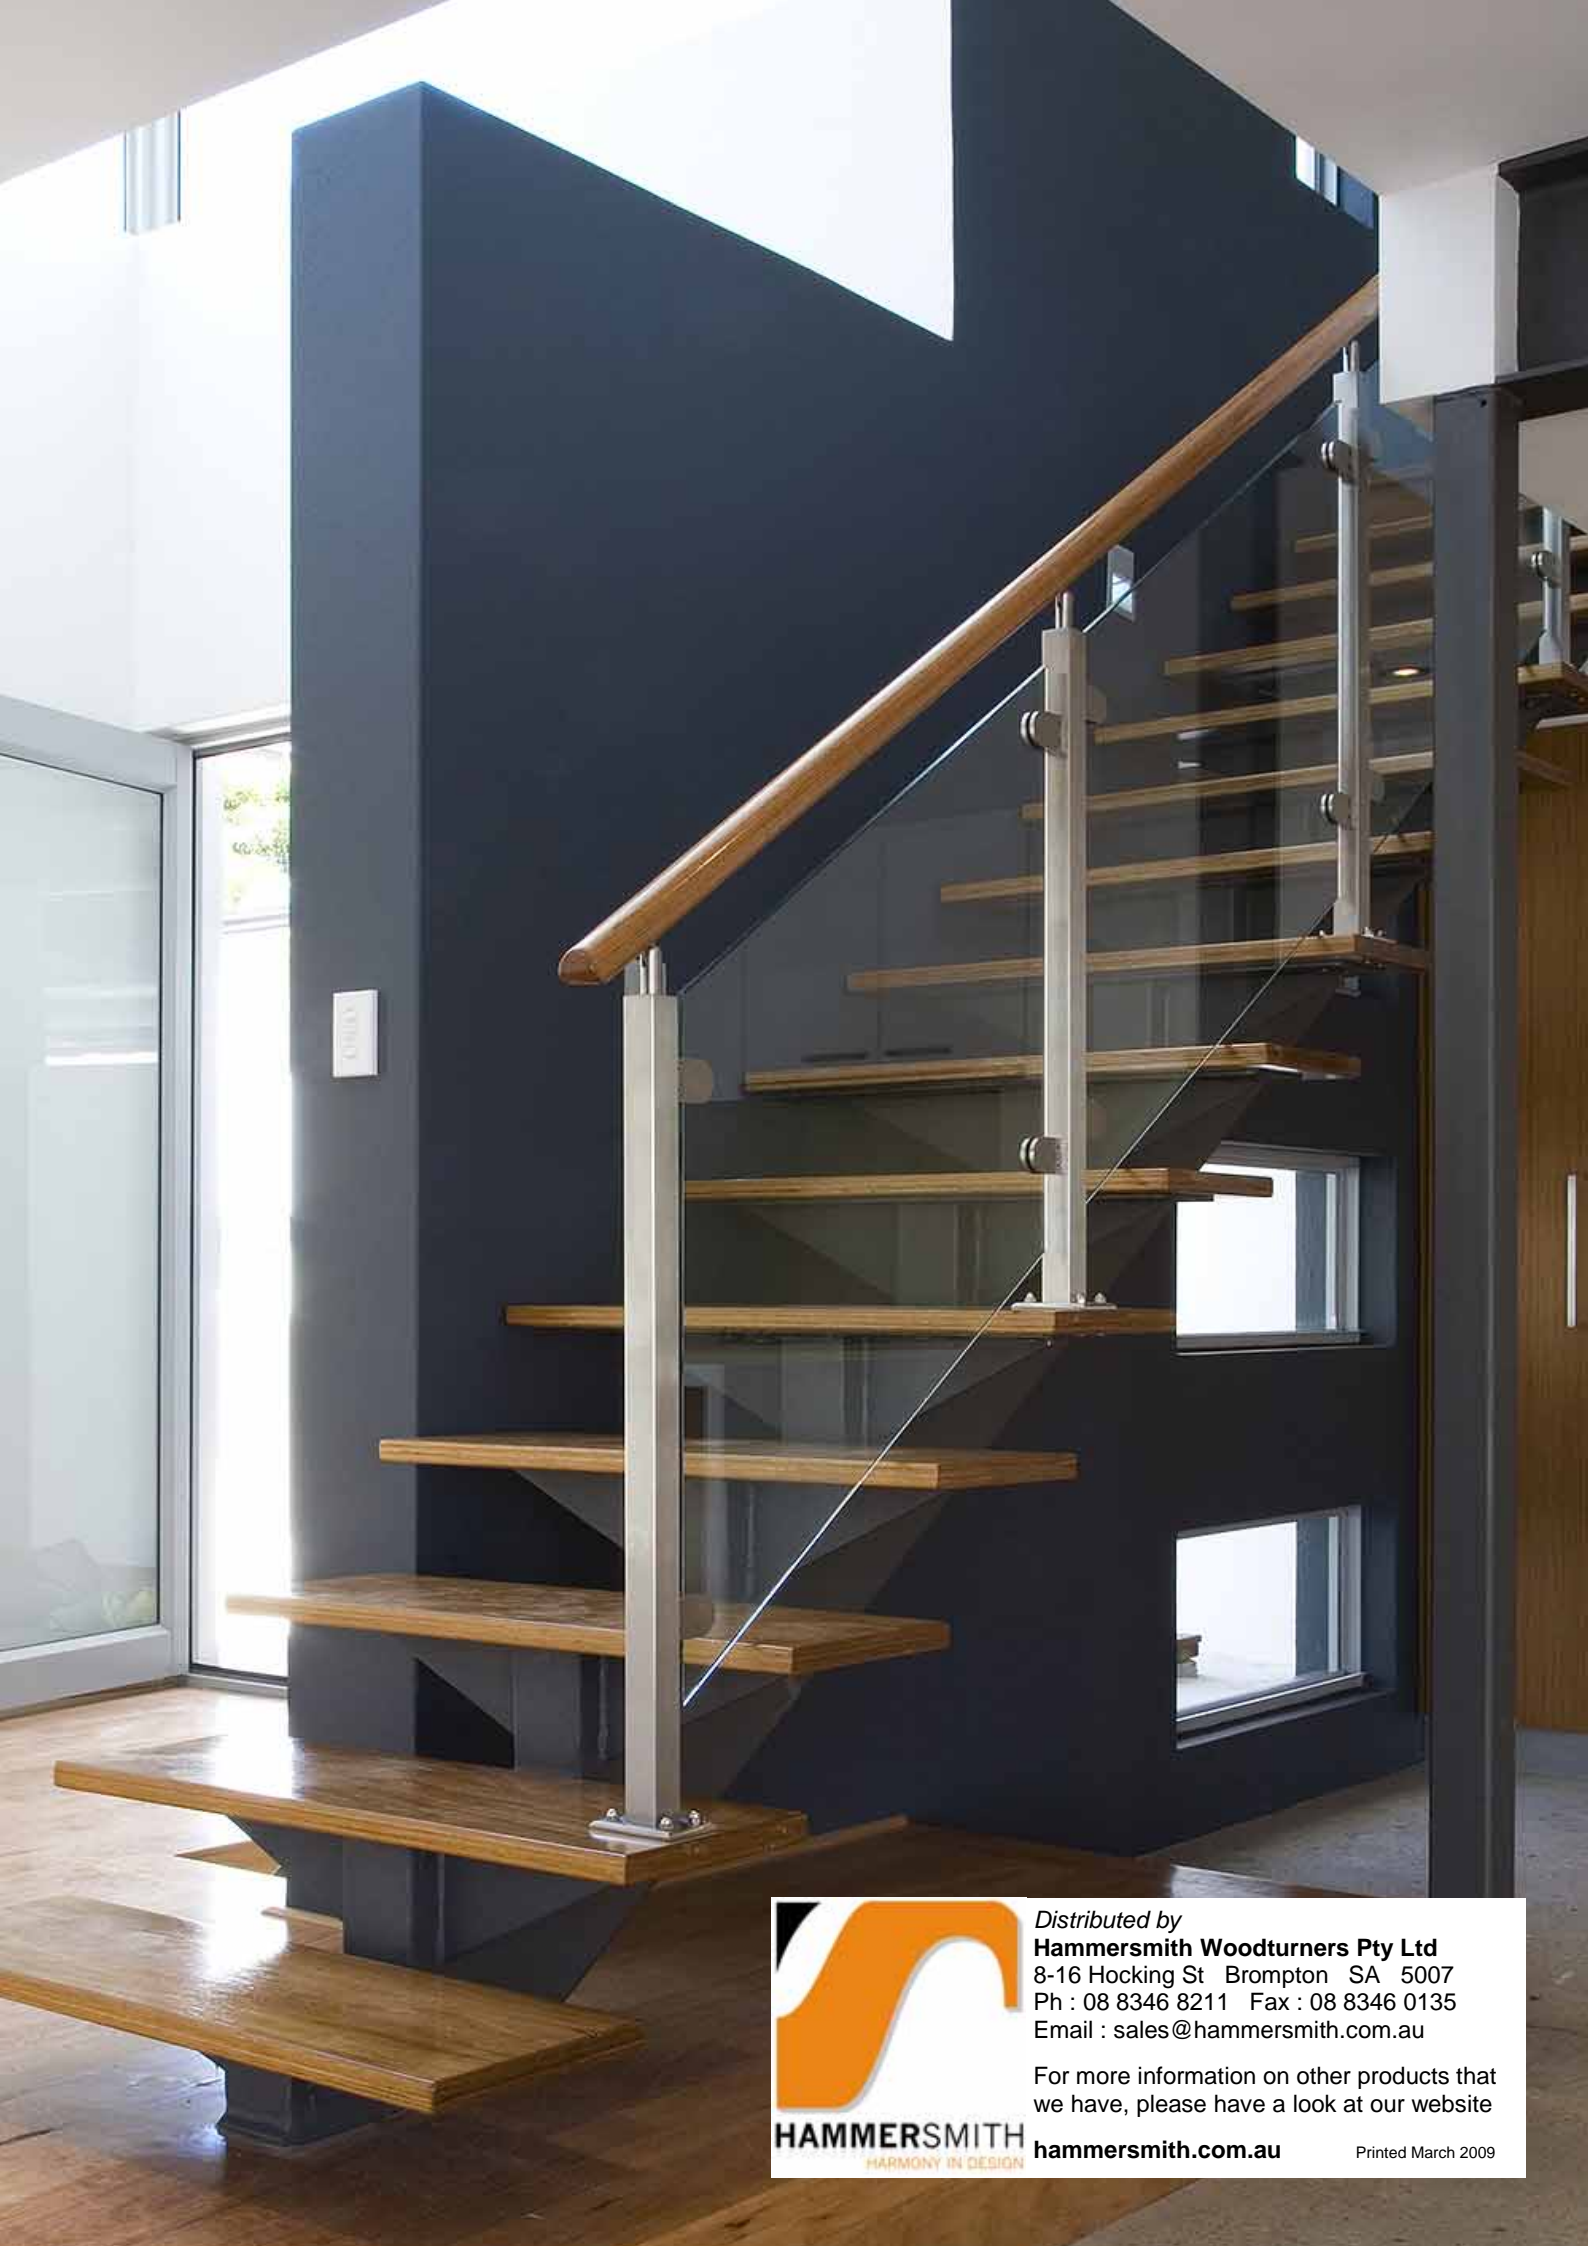

Glass Clamps
JN309 - for Square Post
JN310 - for Round Post

1/2" Hollow Bar
JN313

Bullet End
(fits over 1/2"
hollow bar)
JN308

Hollow Bar Holder
JN311 - for Square Post
JN312 - for Round Post
